GRADE 10

JUNE 2022 – JULY 2022

“ EDUCATION

Education is not just going to school and getting a degree. But, it's also about expanding knowledge and absorbing life knowledge.

- 05** HEALTH TIPS

"Every student can learn, just not in the same way".

Our children are active change-makers who help us create a more conscious and mindful society. They are not just the passive recipients of our continuous efforts.

If we look around, it is evident that children feel and react much more strongly and positively about whatever is happening around them. They question, they challenge, they pull us out of our lethargic stupor that we have let ourselves slip into because of the routine.

An essential part of our children's learning at schools need to be on developing life skills and not just the academics. This is to equip them with critical thinking, analytical skills, problem solving and contribute to the holistic development and thus transforming them into the responsible citizens of tomorrow.

Keeping this objective in mind, we need to give them a platform for expressing their creativity, where they can share their ideas, vision and visualization that alchemize into reality.

Newsletter is one such effort from school.

Teachers note

“Success is not final; failure is not fatal; it is the courage to continue that counts.”

Dearest students of Grade X, it's my pleasure to welcome you for your first newsletter.

“Education is the passport to the future, for tomorrow belongs to those who prepare for it today.” I encourage you to learn as much as you can now as learning is a treasure that will follow its owner everywhere. I hope to see you all succeed in your endeavour.

POEM

NATURE

Deepthy V Grade 10

There is a pleasure in the path less road,
 There is a rupture on the shore ,
 There is a society , where no one intrudes
 By the deep sea and music in roar
 I love not the man in the less
 but the nature in more.

I AM EARTH

Arun Shakthi Grade 10

I am the earth talking
 Don't think I am not watching
 Don't take me for granted
 You are in my list of wanted
 I know how to repair myself
 It's better if you control yourself.

Riddles

C Puneeth Utham Grade 10

- What is easy to get into , but hard to get out of ?
TROUBLE
- What gets wet while its drying?
TOWEL
