Facts

Every student can learn, just not in the same way.

Our children are active change-makers who help us create a more conscious and mindful society. They are not just the passive recipients of our continuous efforts.

If we look around, it is evident that children feel and react much more strongly and positively about whatever is happening around them. They question, they challenge, they pull us out of our lethargic stupor that we have let ourselves slip into because of the routine.

An essential part of our children's learning at schools need to be on developing life skills and not just the academics. This is to equip them with critical thinking, analytical skills, problem solving and contribute to the holistic development and thus transforming them into the responsible citizens of tomorrow.

Keeping this objective in mind, we need to give them a platform for expressing their creativity, where they can share their ideas, vision and visualization that alchemize into reality.

Newsletter is one such effort from school.

Teachers message

We the teachers of Grade 2 are so excited to welcome you all to the school with good wishes. We are happy to see you all again in classes. We are going to have fun learning, reading, and lots more. We hope to have a great year together.

A daughter

I am a daughter.
Beloved of my mother and father,
Like a lotus blooms in water,
caused by blessings of my teacher.
I have dreams to become a doctor,
being carved by my school teacher.
Confident to get it as a daughter,
remember it is my future.

FACTS
DID YOU KNOW

BEE

The bee lives less than sixty days, visits thousands of flowers and produces less than a tea spoon of honey. For us it is only a tea spoon of honey, but for the bee, it is a life.

Henry Mishel

An American who was the first person who introduced "EXAMS".

RAINBOWS

Rainbows appear as full circles when you're in the sky. They only appear as half circles from the ground because there is no rain below the person viewing it.

ELECTRIC STREET LIGHT

In the entire Asian continent first electric light was placed in Bangalore in 1905.

ALPHABET A

The letter "A" is not found in the spellings of any number from 1-999.

The Lion And The Mouse

A lion was sleeping in a forest. A mouse started playing on it. The lion was disturbed and arose from his sleep. It caught up the mouse angrily and tried to crush it to death.

Then the mouse prayed the lion to leave him off and assured that it would help him when needed. The lion laughed at it and let him off.

One day the lion was caught in a net spread by a hunter. It roared and tried to escape but in vain. The mouse heard the lion's roaring and came there. It started cutting the net with its teeth. The lion escaped and thanked the mouse.

MORAL - A friend in need is a friend indeed.
